Bulk Handling Facility of the Year

Nominating criteria and instructions:

- Nominating is free and must be completed using this online form by 11:59pm Friday 28 February 2021.
- Your nomination must be completed in one sitting; a partially completed form cannot be saved and reopened at a later date.
- All products and/or technologies must be manufactured and/or commercially available in Australia.

- Please have any supporting documentation (i.e. brochures, photographs, testimonials) ready to upload. No single file should exceed 3MB in size. Any file above that size won't be provided with judging files.
- All nominations must be accompanied by a high-resolution image (at least 1MB in size) suitable for print publication.

By submitting a nomination, you give Prime Creative Media permission to publish all or part of your nomination in Australian Bulk Handling Review or another suitable publication.

Bulk Handling Facility of the Year

A supplier that is excelling in the bulk solids handling sector.

Provide the facility name (as you would like it listed in marketing and communications).

When did the facility begin operations?

Demonstrate how the facility enhances at least one of the following: productivity and output levels, cost-saving, sustainability, safety. (60 points)

Justify the facility's location and how this position achieves outcomes for customers. (40 points)
