Excellence in Transport and/or Conveying

Nominating criteria and instructions:

- Nominating is free and must be completed using this online form by 11:59pm Friday 28 February 2021.
- Your nomination must be completed in one sitting; a partially completed form cannot be saved and reopened at a later date.
- All products and/or technologies must be manufactured and/or commercially available in Australia.

- Please have any supporting documentation (i.e. brochures, photographs, testimonials) ready to upload. No single file should exceed 3MB in size. Any file above that size won't be provided with judging files.
- All nominations must be accompanied by a high-resolution image (at least 1MB in size) suitable for print publication.

By submitting a nomination, you give Prime Creative Media permission to publish all or part of your nomination in Australian Bulk Handling Review or another suitable publication.

Excellence in Transport and/or Conveying

A piece of equipment or conveying technology that moves bulk solids materials from one location to another.

Provide the equipment name (as you would like it listed in marketing and communications).

When was the product implemented?

Demonstrate the company's history and experience with transport and conveying of bulk goods, including any notable recent contract wins. (20 points)

Demonstrate how the equipment enhances the transport of bulk solids materials in at least one of the following: productivity, efficiency, cost-saving, sustainability. (50 points)

Demonstrate how the product differs from other available transport solutions. (30 points)

Upload your 1MB image:
